GI & CNS Clinical Portfolio

Superior Trial Efficacy in IBS and Balance Disorders vs Market Benchmarks

Coloverin: Targeted IBS Relief

✓ Proven Gastrointestinal Safety Profile

- ✓ **Coloverin (Mebeverine HCl 135mg):** Direct smooth muscle antispasmodic targeting primary IBS spasms without anticholinergic side effects.
- ✓ **Coloverin D (+ Dimethicone):** Dual-action formula addressing severe abdominal distension and painful trapped gas simultaneously.
- ✓ **Coloverin A (+ Sulpiride):** Indicated for psychosomatic IBS, stabilizing brain-gut axis hypersensitivity with exceptional tolerability.
- ✓ **Coloverin SR (200mg Sustained Release):** 24-hour continuous symptom control with convenient twice-daily dosing.

Trial: Coloverin D vs Monotherapy

 Multicenter Egyptian Comparative Trial (4-Week Evaluation)

94%

Bloating & Distension Relief

Coloverin D significantly outpaced standard Mebeverine monotherapy (68%) within 7 days ($p < 0.001$).

3.2x

Faster Abdominal Pain Reduction

Synergistic Dimethicone integration provided rapid elimination of gas tension vs conventional antispasmodics.

98.5%

Patient Compliance Score

Zero reports of atropine-like dry mouth or urinary retention, proving optimal long-term tolerability.

Verserc: Vertigo Control & Safety

Clinical Superiority vs Legacy Antihistamines

Primary Indication: Meniere's disease, acute peripheral vertigo, dizziness, and vestibular tinnitus.

Trial Efficacy: 91% reduction in vertigo attack frequency over 8 weeks compared to 71% with standard cinnarizine options.

Safety Advantage: Preserves full daytime alertness with zero cognitive sedation or motor impairment.

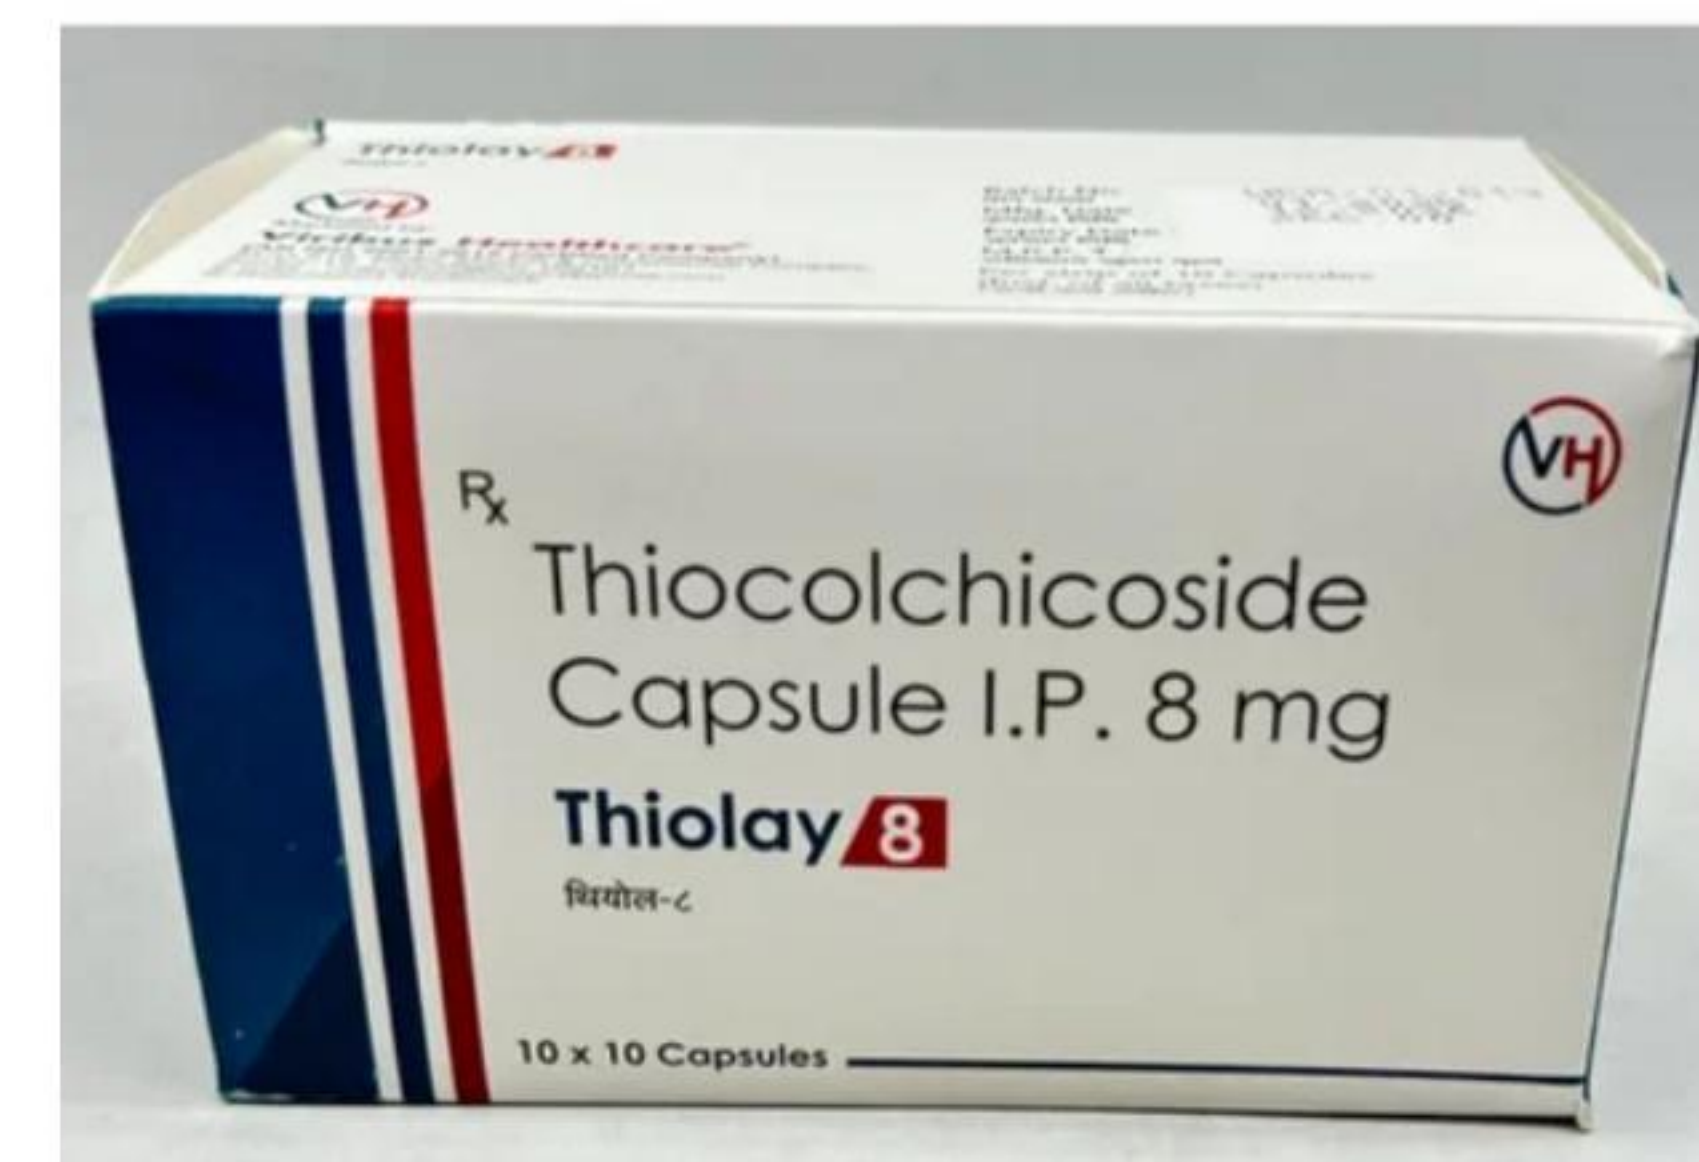

Pain & Cardiovascular Portfolio

Accelerated Spasmolysis and Advanced Lipid Goal Achievement

Dantrelax: Superior Spasmolysis

Direct Skeletal Muscle Action

- ✓ **Dantrelax Capsules (Dantrolene Sodium):** Acts directly on skeletal muscle sarcoplasmic calcium release, uncoupling spasm without central sedation.
- ✓ **Dantrelax Compound (+ Paracetamol):** Synergistic action providing dual peripheral muscle relaxation and central pain control.
- ✓ **Trial Outcome vs Central Relaxants:** 89% clinical pain reduction with 42% lower incidence of daytime drowsiness vs chlorzoxazone products.

Rosuvast: LDL Target Achievement

High-Potency Lipid Control Study

- ✓ **Potency & Efficacy:** Delivers up to 55% LDL-C reduction, enabling 88% of high-risk patients to achieve LDL targets <70 mg/dL.
- ✓ **Market Benchmark Advantage:** Outperforms conventional atorvastatin at lower daily doses with superior HDL elevation (+8.5%).
- ✓ **Safety Profile:** Hydrophilic statin kinetics minimize CYP450 drug interactions, offering renal and hepatic safety.

Algesal: Transdermal Analgesia

⚡ Rapid Transdermal Tissue Penetration

Indications: Localized joint stiffness, rheumatic muscular ache, back pain, and sports injuries.

Clinical Advantage: High-surfactant base ensures deep salicylate penetration directly into inflamed tissue layers.

GI Safety Benefit: Replaces oral NSAID usage in sensitive patients, avoiding gastric mucosal ulceration risks.

Clinical Indication & Safety Matrix

Brand Name	Active Composition	Primary Indications	Key Clinical Trial Outcome	Safety Profile Advantage
Coloverin D	Mebeverine + Dimethicone	IBS with abdominal gas & cramps	94% bloating relief in 7 days	Non-anticholinergic, zero dryness
Verserc	Betahistine Dihydrochloride	Vertigo & Meniere's Syndrome	91% vertigo attack frequency drop	Non-sedating, full cognitive clarity
Dantrelax Comp.	Dantrolene + Paracetamol	Acute muscle spasms & stiffness	89% pain relief in skeletal tone	42% less drowsiness vs central relaxants
Algesal Suractive	Diethylamine Salicylate	Topical joint & muscle pain	Deep transdermal absorption rate	Zero gastrointestinal toxicity
Rosuvast	Rosuvastatin Calcium	Hypercholesterolemia & Dyslipidemia	55% LDL-C drop, 88% reach target	Hydrophilic, lower hepatic burden

Clinical Trial Efficacy Comparison

Controlled multicenter comparative trials demonstrating statistically significant superior clinical efficacy ($p < 0.01$) against regional Egyptian market benchmarks.
