Organogram and employee reload

The October workbooks were loaded into zetapharma.my.salesforce.com on 19 October 2026. Counts below were checked against the files after the territory, brick, alignment, user, and roster jobs finished. The hierarchy is still Head Office, Business Unit, Line, District, and Position. National sales managers, area managers, district managers, and medical reps were assigned onto that tree.

Roster assignments

The organogram names 801 people. 666 match an active Salesforce user and 135 do not, because neither workbook has an email for them. Those 135 seats were left empty. For the matched users, 703 of 703 seats are on the territory named in the file. Vacant seats were not given a user. People on the new roster were removed from organogram seats that are not in the file. Training seats were not touched.

Exceptions

These items were checked and are called out because the workbook or the org could not be applied exactly.

2273 Elaria Ayman Bedier Nagib AbdelMalak. Login username is now elaria.ayman@zeta-pharma.com. The Email field stayed alaria.ayman@zeta-pharma.com; a direct update returned success and Salesforce kept the previous address.

506 Hassan Mohamed Mokhtar Gaballah. Manager code 1048 is not a Salesforce user, so the manager was left blank. The line value 0 was cleared.

Fatma Esmail Shawky Gaber, code 2533, has no business email, so no username was created.

Ten NEUROSCIENCE-II positions had a district cell of None. They were loaded under NEUROSCIENCE-II UNASSIGNED: NEUROSCIENCE-II ALEX CENTER - ALEX WEST; NEUROSCIENCE-II ALEX EAST; NEUROSCIENCE-II BEHAIRA; NEUROSCIENCE-II CAIRO CENTER-CAIRO WEST-CAIRO SOUTH; NEUROSCIENCE-II DAKAHLIA-A - DOMIAT; NEUROSCIENCE-II DAKAHLIA-B - P.SAID-N.SINAI; NEUROSCIENCE-II DOKKI-IMBABA-FAISAL; NEUROSCIENCE-II GIZA CENTERS-HARAM-OCTOBER; NEUROSCIENCE-II MAADI-HELWAN-FAYOUM; NEUROSCIENCE-II SHARKIA - ISMAILIA-SUIZ.
